Lock the house

Please always LOCK the door with the key (if you leave the house, but also if you're in the house). Don't forget to close and lock the balcony door/windows at the back of the house as well when leaving (if the home has a balcony door).

When entering or leaving the building after 19:00 hours please lock the door of the house (downstairs at the street) with the key. Only closing the door is not enough, you need to lock it with the key.

Neighbors

Please be aware! Noises (voices and music) are easily heard by neighbors. So be careful with sounds and music. Especially on the balcony or roof terrace and in the house while the doors and/or windows are open. Please keep the noise down after 9pm.

Thermostat

The thermostat is located at the entrance of the home. Ofcourse, you are free to adjust the temperature. You can regulate temperature by turning the knob up or down. Make sure to turn off the heating when you leave the house.

Carpet stairs

The stairs carpet is very sensitive to stains, so please be careful with dirty shoes or carrying something that could cause stains when accidentally spilled (e.g. food, drinks).

White wardrobes/dressers for you to use

Please feel free to utilize the white wardrobes or dressers in the hall/bedroom(s) for you to use and store your clothes/belongings in.

(Roof)terrace (if applicable)

Feel free to use the roof terrace! It adds a great feel to the home. If you want to sit on the terrace couch, there are couch pillows that you can use for more comfort. After staying on the roof terrace, please make sure to check your shoes when you enter the house again (especially when the roof terrace is wet because of the rain, it easily causes dirty shoes and stains on the carpet). Please bring the couch pillows inside when leaving the home in case it rains.
